## ABOUT US

We are a democratic school with a self-directed learning philosophy where governance is shared between students and staff in a mixed age setting.

We provide young people with rich learning opportunities in an environment of trust and reciprocal respect, enabling them to find meaning, purpose and passion in their authentic learning path.

Our vision is a world where all young people have access to a self-directed model of education that values the voice and choice of each individual, empowering them to be agents in their own lives.
